

Utility Switch Checklist

A calm, step-by-step way to cut your household bills

RASHIL LTD

START HERE — READ FIRST

Before you research utility providers or comparison sites, please book a call with me to discuss options with a FTSE 250 company who do not advertise, so they won't come up in your searches.

They are saving people a lot of money. Let's have a quick chat to see how much they could save you — we don't need to take long in this first conversation. I just want to get a feel for the services you have and how we can save you money.

Before you switch

ENERGY

- ☐ Find your latest bill (annual kWh or gas units)
- ☐ Check your current tariff name and unit rate
- ☐ Note your standing charge
- ☐ Compare whole-market deals, not just price-cap estimates
- ☐ Check exit fees on your current fix

BROADBAND

- ☐ Test your actual speed at home
- ☐ Check your contract end date
- ☐ Compare providers for your postcode
- ☐ Factor in line rental and setup costs

Utility Switch Checklist

After the switch, and a few habits that keep the savings

RASHIL LTD

MOBILE

- ☐ Check your actual monthly data usage
- ☐ See if your current handset is paid off
- ☐ Compare SIM-only deals
- ☐ Check coverage in your area

AFTER SWITCHING

- ☐ Take a final meter reading
- ☐ Save your confirmation emails
- ☐ Set a calendar reminder before the new deal ends
- ☐ Check the first bill matches the quoted rate

Keep the momentum

Audit your subscriptions

Cancel anything you have not used in the last month. Free trials are only free if you remember to cancel.

Meal plan before you shop

A list cuts impulse buys. Plan meals around what you already have and what is on offer.

Not sure where to start?

Bring your bills to a free 15-minute chat and we'll look at them together — no pressure, no jargon.
